

OTHER FARMERS, UNLESS THEY ARE SECURED IN GOVT CUSTODY IMMEDIATELY.

We urge you to look into this complaint urgently, and take action to STOP the spread of hazardous, unapproved and illegal GM crop. We would also like to inform you that a small portion of the sample is being sent by us to an independent private laboratory within India for testing and confirmation on whether it is indeed genetically modified, and also being sent to the Government of Gujarat.

Waiting for your urgent action and response.

Thanks.

Sincerely,

Maganbhai Patel
